## FROM OUR DIRECTOR'S DESK

It's that time of year again. Where we say goodbye to last year and look forward to what's to come. 2022 was an amazing year for SHI! Our staff started expanding in the final quarter of 2022. This will allow us to offer more (nail) start dates in the coming year! We are excited to be available to more potential students with the additional staff. We also have added additional staff roles that will allow us to focus even more on training and development. Our students now and to come will benefit from the positive growth of 2022.

So, join me in welcoming 2023!

We are ready!

# NAIL TECHNOLOGY DEMO DAY

Our Nail Technology students had Zaria Thomas come in for a demonstration on nail design to broaden their nail training! Zaria Thomas started nails in 2020 and also became a licensed Esthetician in 2021. Zaria specializes in acrylic nails with intricate artwork and creativity! We are so thankful that she came in to share her knowledge with our students!

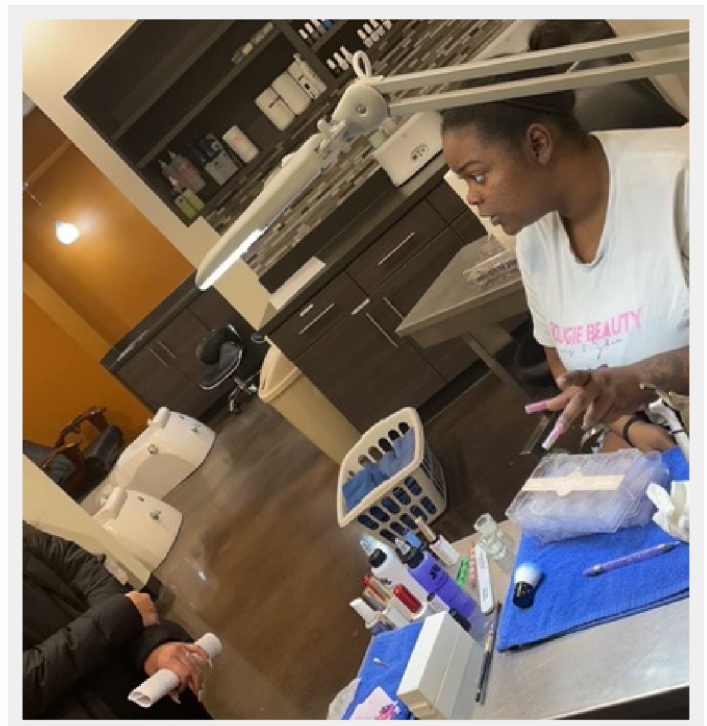

Thank you Zaria!

Zaria Thomas
